### The News.

We have later nows from Culifororaia by the stonmer Stur of the West. Business at San Francisco bas toon unusually dull. Mining and agricultural prospects are eminently favorable. Forrest City, Sierra Co. was completely destroyed by fire on the 10th of April " The prospects are, that California will become

a christian land in the course of time. The Legislature has passed a law probibiting the transaction of business on the Sabbath. Archey, the fugitive slave boy has been discharged by the United States Commissioners, as his master brought him to California from Mis-

sissippi, and by the laws of California he thus bacame free. The religious revival was in progress in San Francisco.

The Legislature had passed a bill prohibiting further immigration of free negroes into the state. Great exoltement prevailed among the colored people in consequence. South American dates to the 12th ult, had

Madison, May, 13, 1858.

The long-looked for Report of the Land Grant Investigating Committee was made this morning. In the Senate, the report was well read by Senator Worthsoron, the Chairman of the Commit too the reading occupying nearly two hours and struct a sewer in block 48 in 8d Ward, and also being attentively listoned to throughout by to cause Michigan and Milwaukee streets to be an able and elaborate document, and goes very of the city Englisher, which were adopted fully into the history of the Land Grant Legislature of 1866, as well as Into the financial and other management of the La Crosse and Milwankee Rail Road Company. There is no proposition, however, and I think no disposition to recall the Land Grant, or interfere with the present management of the La Crosse Rail Read.

Both Houses sat for ten hours, yesterday, and transacted a good doal of business. There is no doubt that they will be able to get through by Monday, the day fixed for the final adjournment. The Senate, this morning, after hearing the Report of the Investigating Committee took up the bill restoring the Death pondity in cases of wilful murder; and devoted an hour in filibustering on the subject. The Lieut. Governor is not the best presiding officer I have seen, and some of the Senators seem to take pleasure in hothering be saved by having the report read at length him. The practice is more amusing than diguified. Speaker Lovell, on the contrary, is an admirable presiding efficer, commands the entire respect and confidence of the Assembly, and carries the business along smoothly and rapidly. A very handsome compliment was paid him, Tuesday evening; Col. Bittings, in behalf of the Members and Officers of the Assembly, presenting Mr. Lovell with a handsome copy of Webster's Speeches and Papers.

The bill to organize the Militia of our State. which had passed both Houses, was yesterday signed by the Governor and it is now a Law. No decision has been had yet, on the Capitel extension or removal question. While, however, it seems protty certain that the Legislature will not go on with the present faulty plan of adding to the old building, thousar approach of the adjournment runders it improbable that they will, at this session, provide either for the tempo. rary, or permanent removal of the Capitol. The question will probably go over, with some others, to the next Legislature.

Business seems unusually dull and travel light, at Madison this year. But this is rather the rule. than the exception with the great majority of the towns of the State. With the fine promise of abundant crops, there is hope of better times by which was adopted. After the transaction of

BYMAGNETIOTELEGRAPH Congressional Processings.

Mount of the Markington, May 13.

House, Mr. Phillips; of Pa., said that Messa.

Cavanaugh and Phelps; members from Minnesota, were present, and moved that they be sworn,

The certificates of election were read, and The certmentes of elections were trade, and found to be signed, by Samuel Medary, Governor of Minnesota, and dated in December last, nor of Minnesota, and dated in December last.
Mr. Sherman objected to the administration of

lie oath.

Mr. Letcher said that in Wirginia the sheriffs owned by Orawford & Price, Cleveland; carry gave certificates of election. The Governor had nothing to do with it. Mr. Sherman remarked into re Outrages upon A mortean lyes elections. that these certificates were signed by a govern ment officeholder, in Ohio. He did not sknow by what power or authority, the contract of a It was known that the Constitution of Minne sota provided for the election of three members of Congress by general ticket, and he desired to be informed where the oredentials of the third

member, were the last the second of the control of credentials had been seen an ablibed seen Mr. Sherman said that by other previatous of the Constitution of Minnesots, the term of Gorden emor does not commence until after the State is admitted into the Union, and this was the only mode by which the House could, judge who is the executive officer of this State. Medary is ot Governor of Minnesota, but Post Master

Mr. Sherman replied that a similar difficulty did not occur in the California case, because there were only two members. Minnesota had

seats. And the seat of the sea the certificates and credentials of those elected as members from Minnesota, be refferred to the committee on elections, with instructions to exunine and report as to their right to be swor as members.

Mr. Phillips referred to the fact that when he was first elected, his certificate said he was duly

elected by qualified votors.

The speaker said he should follow the price-denuin the California case, when the chairire ferred to the House; for their decision whether members be sworn.
Mr. Harris of Ill., thought it better for t public business that the subject be examined by the Committee on Elections, who will immediitely have a meeting.

Mr. Florence of Pennsylvania, said that if b general consent, the members were sworn in e would have no objection to the subject going

efore the Committee.
Mr., Hughes, of Ind., moved that the Hous Mr. Morgan, of N. Y., objected to the noise on the Democratic side, while on the Republican ide all was quiet. The Speaker expressed the opinion that there

order, and the Mr. Hughes motion was voted down, and Mr. Mr. Hughes motion was voten down, and and the sherman is agreed to by 4 majority.

The question recurred on agreeing to Mr. Phillips motion as amended by the adoption of Mr. Millson's substitute, and it was decided in the affirmative by 108 against 83, Mr. Kunkel, of Md., from the committee on acts made a report, charging R. B. Harkness, though the choice, with having abased his authority, in the appointment of his subordinates leaving some of them to depend on the grace and bounty of the house for their salary; for this and bounty of the house for their salary; for this he cannot be too severely consured. Mr. Harris of Ill. from the committee on elec-tions, made a report on the October, election case, estating that four members of the committee were in favor of Mr. Campbell's retiring, 4 in fa-vor of giving the seat to the contestant Mr. Vallingham, and one recommended that the seat he declared vacant. he declared vacant. . Mr. Clark of Maine, made an advance report

upon the memorial of the people of Utah, asking admission as a state of the Union.

The remainder of the day was devoted to the consideration of terrirorial business.

No bills passed. House adjourned.

SERATE.—From the meeting of the Senate at

11. A. M., to 1 P. M., the discussion was upon

what to take up.

Mr. Clingman wanted the fishery bill. Mr. Congram wanted the honestead bill, and Mr. Hunter insisted on the general appropriation bill; which was finally taken up, by a vote of 28 against 10. The bill, containing 27 pages, was then yet. hen read. Notwithstanding that the Senate has been in

cowtenantum tout the Senate has been in session for 7 hours, nothing practical has been done. The appropriation bill was read by sections, some formal amendments, were adopted, and the bill passed; whereupon, Mr. Doolittle, of Wis, moved to reconsider, which was carried—22 against 16. The bill being under discussion again, an animated debate continued over three hours.

### PRIDAY MORNING, MAY 14.

Senator Neward's Speceli. We publish the conclusion of Senstor Seward's speech on the Kansas question this morning,-For devoting so untch of our space to this subject, we need effer no apoligy to our readers, for it is our belief that we could devote our colams to no better object. Mr. Seward's speeches are probably more extensively read in this country than those of any other living statesman, not excepting the "little giant." The present one, is an able and clear disquisition upon the absordities of that extremely "democratic" measure the Conference bill; it also shows in the clemest manner, the rediculous position which the administration party new occupy be fore the world. The so called " National Dem . ocratic Party" has committed the last outrage against freedom and the rights of Kansas, unnecessary to consign it to the traiter's grave, and it's requies may be written to the tune of the English bill. Ameo, say wel-

Knoses will Spurn the base Offer. Nobody can doubt, but that the people of Kanons will most emphatically reject the base offer to barter the right to adopt their own constitution for any pecupiary consideration. Their devotion to the cause of freedom has already been put to the most severe tests; and they have shown themselves proofagainst every effort of the administration to force them to submission. They have shown themselves ready to sacrifice all, for principle's make, and will they now countenance this last, this most disgraceful attempt to faston the withering curse of slavery upon their virgin soil! No, they never will; there can be no mistaking the indignant feeling which will actuate every freemen within the territory when this last base attempt of the administration to bribe Lecompton with all its horrible features upon them becomes generally known. They have struggled too long and too bravely against the ad-

The people have now got their eyes opened, and they have learned by dearly bought experience, that the word "Democracy" in these latter times, is only a disgular under which villalny of every description is carried on, as well in our municipal

SPHECH OF THE HON. WM. M. SEWARD. In the U. S. Senate, April 29, on the Kansas conference bill

[CONCLUDED.]

Mr. President, I have shown that this bill Mr. President, I have shown that this bill gives to the people only a show of choice between freedom and slavery. I have next to show that it provides for overriding, counteracting, and defeating that very shadow of a choice if it shall be in flavor of freedom. The bill provides; not that the people of Kansas, or their Legislature, or their authorities, shall appoint the commissioners under whom the contemplated electure, or their authorities, shall appoint the com-missioners under whom the contemplated elec-tion shall be held, and its results ascertained, but it constitutes a board, to consist of five por-sons; and while it allows two to be named by, the people of Kansas, it asks three for the Pres-ident of the United States. Now, sir, there have here flye ground appointed by the Penaldont have been five agents appointed by the President of the United States to hold elections, and return results in the territory of Kansas already and results in the territory of kansas arready and and every one of them has been dishonored and diggraced for having struggled to prevent fraud, and to certify the truth about these elections.—
The ghosts upon the banks of the Styx constitute a cloud scarcely more dense than the spirits of the departed Governors of Kansas, condemned to exile and ruined by the President for having constitute to the truth against falsehood in regard to cordified to the truth against falsehood in regard to the elections between freedom and slavery in

Kansas.

Sir, I am accustomed to measure my word when I speak of other men, even of public men. I know how liable I am to err. myselt. I think that I have so much of charity as will induce a tone I have so much by charry se war induce a favorable judgment of a political adversary to the full measure that I expect and ask it for myself. But, sir, though it is with puin, and shame, and mortification, yet I do confess that I cannot trust the President of the United States. It is the most humiliating confession I have ever made in the presence of my countrymen and the made in the presence of my countrymen and the world; for, when I have looked over the long roll of kings, princes, doges and emperors, and have seen how their careers began in fraud, culminated in assessination, and ended in violence, I have said a complete demonstration of the sucness of the American Constitution is found in the fact that, with all the defects of the instrument, and amid the often tumultuous movements of th people, there is a roll of names of those who have filled the Presidency, whose virtues outshine those of any dynasty that has over ruled

any nation on the face of the whole earth.

Sir, if the President of the United States had even allowed, not to say if he had enforced, fairnows in the elections in Kansas, she would not be a suppliant, trembiling with dismay and upprehension, in the Sonate of the United States to day. I know that, in epeaking thus plainly, I shall wound the sensibilities of some publicand patriotic men. They will cry shame upon may when I disparage the fame of the President of the United States. But, sir, I am used to that.—
The world is used to that. I remember that there The world is used to that. I remember that there were patitols in Virginia who cried shame on Patrick Henry when he decounced George the Third. There were not wanting patriots in the Senate of Rome who heard with pair Oato denounce the first Gesse. Sir, those who have brought liberty down and trampled it in the dust have never been those who, in Senates, accessed emporors, kings, or presidents.

Upon what grounds is this bill, thus shown to be so deeply objectionabe, recommended to us? First it is recommended as a compromise. The honorable chairman tells us that when there is a

inistration and its border ruffian backers, to now initiation and its border ruffian backers, to now its border ruffian backers, to now initiation and its border ruffian backers, to now initiation and its border ruffian backers, to now its border ruffian backers, to now its border ruffiant backers, to now its back

Our constitution and our Union came into being seventy tution and our Union came into being seventy years ago, when it was necessary to decide between these two systems of civilization which were found among us. The states which were founded upon the new civilization now stand before you. Contemplate them; say whether the world has seen such state? You see also the states which were founded on the old deciding civilization of the Roman emplre. rejected her, you still had the show of excuse; for these same Representatives of the free states, as a will as of Kansas, should acquiesce. But you are now, after having falled in these two effects, persisting, without that excuse. Two of the Senators, one the leader in the repeal of the Missouri Compromise, the other hardly less effective in that transaction, now remonstrate with you against the further proceedation of this attempt as impossible. Still another, from Michigau, remonstrates; I mean the late distinguished Senator from Michigan, now at the head of the Department of the State. I do not say that he remonstrates in words, but I do say that the retirement of the thierents, his genius; and his ber, so suited to his taients, his genius; and his

there is no peace in this world for compromisers, there is no peace for those who practice evasion; there is no peace for those who practice evasion; there is no peace for those who practice evasion; there is no peace for those who practice evasion; there is no peace for a republican land for any statesmen but those who act directly, and boldy abide the popular judgment when it may be fairly and clearly and fully accertained, without attempting to falsify the issue submitted or to corrupt the tribunal. Sir, beneath the white gauze that is spread over this signal of truce I see distinctly the mingled stains of fraud and bloodblack spots and red, the true, uncring marks of a piratical flag. If you mean, by troubles, apprehensions of olvi commotion, of violence, of turbulence, of sedition, of faction and civil war I tell you frankly you, need be at no pains to avert those dire evils. This cause of equal and impartial freedom in the states has at least become strong enough to work its way through constitutional forms to its destined and final tribuph. But if you mean agitation, which is to be avoided or suppressed by this legislative or any other device, then let me assure you plainly that you recken altogether wildly. creignty has gone the other way. Will that make peace? I think I should like to be near by and see this slave state attempted to be organized under the Lecompton constitution. I

Mayrlage with a Deceased Wife's Sis

[From the N. Y. Post.] [From the N. Y. Pest.]

The question of the legality of marriage with a deceased wife's sister has, in consequence of the decision of Justice Croswell, and more recently that of the Vice Chanceller in the case of Brook ayt. Brook to which we have before alludded, given rise to considerable discussion in Eagland. The opinion of the latter judge fully sustains that of his brother on the bench, and that it may now be considered settled that a marriage between a man and his deceased wife's sister, both being British subjects, performed in a foreign country, the laws of which recognize such marriages, is outled and void according to sch murriages, is bull and void according to

the law of England.

Against the severity of this decision an earn est protest has just been made at the annual mosting or the Protestant dissenting ministers of the Prosbyterian, Independent and Espitat denominations, residing in and about London, who adopted a series of resolutions declaring that the marriage of a man with the slater of his deceased wife is not forbidden by divine law, and ought not to be forbidden by human law, and ought not to be forbidden by human law; that the pressure of the English law which declares such marriages lilegal is much aggravated, by the opinion of Mr. Justice Croswell, to the effect that such marriages, although performed in a foreign country where they are lawful, are not consequently lawful in this country; and as this decision affects many marriages although the statement of had an this decision sheets many harringes are ready contracted, as well as others which may be in contemplation, it is now more necessary than ever to make strenuous exertions for the

epeal of the existing law.

The bill introduced in the House of Commons The bill introduced in the house of commons, by Lord Bury, for the repeal of the law, is still under consideration, and from the proverbial slowness which attends social and constitutional reforms in England, way full to become a law at this session of Parliament. That the public feeling is in lavor of the measures there can be but little doubt.

number of the London Lancet alludes to the supposed degeneration of the physical condition of the inhabitants of this country, which it ms-cribes mainly to the theoretical notion that "the cribes mainly to the theoretical notion that "the races of men can permanently maintain themselves and thrive in these countries alone to which they originally belong, as chiefly associated with which they came down to us in the achieves of the world's history." The apparent contradictions to this theory are met by the reply that those quarters of the globe at present peopled by races foreign to the soil are in reality continually restocked by immigration, and that the influx must be arrested for a sufficient length of time before we can determine how the foreign race could propagate and maintain itself in its adopted clime. The Lancet asks, is the Spaniard thriving in South America, or the Celt and the Saxon in its Morthern half, under the limitsations we require? mitationa we require?

limitations we require?

We roply that the Colt and the Saxon are thriving in the northern regions of America, and that they do not depend upon immigration alone for their rapid multiplication. It is true, the largest mortality is to be found among the late arrivals, but this fact only shows that their mortality is chiefly owing to the destitution, neglect and ignorance which they brought with them from the mother country. The Irishman flourishes on the American soil. Ignorant and oppressed, the victim of misery and epidemic disease, he is apt to die after undergoing the oppressed, the victim of misery and epidemic disease, he is apt to die after undergoing the hardships of a sea voyage, or when exposed to the nuwholeseme influences of fifth and impure air in the crowded dwellings of the poor. But once established, he multiplies rapidly, and suesessive generations improve in intelligence, in wenth and in health, under the advantages of a free government, and a fair field for the development of all their powers.

As to the Anglo-Saxon, the American soil appears to be almost as congenial to him as the laud of his fathers. This at least is true, in New England, where the average duration of life is very great among the native born. We hardly know a country where the instances of very long life are secommon. It is by no means your rare to witness examples of individuals whe

very rare to witness examples of individuals whe attain the age of one hundred years and upwards, and we have lately cited instances of the great longovity of shose whose deaths are recorded in the daily newspapers. The real cause of ill health and shortness of life in this country, will be and shortness of life in this country, will be found not so much in the want of adaptation to the climate as in the disregard of hygienic measures. When we exercise as much in the open air as our English brethern, when we make the pursuit of wealth secondary in the pursuit of happiness, we may expect to lengthen our average amount of good gealth.—Beston Medical and Surgical Journal.

SMITH S. WILKINSON,

Wood's Hair Restorative.—This wonderful preparative is having an extensive sale in all pass of, its Union. It is one of a few patent medicines which are now sold over the country, that are really what their inventors claim for them. Wherever it has had a fair trial, the result is precisely as Wood predicts. It has ever failed to turn the white halv back to the natural color, where the directions have been strictly followed, and in numerous cases it has restored the halr upon heads that have been bald for years. It is not pretended that it will make the halr grow in every case, but where it falls there is certainly no remedy. The restoration of the hair has been effected in so many instances where the case seemed utterly hopeless, that it is outsinly worth white for all who have loss their hair to try the appertment of using a bottle or two of Wood's Restorative.—Modifies Workman.

# THE DAILY SENTINEL.

Railroud Meeting. At a meeting of the Stockholders of the La Crosse and Milwauke Railroad Company, held in Beaver Dam on Thursday the 5th inst. Martin Webster, Esq., was called to the chair, and M. Gullaton appointed Secretary.

The meeting was addressed by Mr. William Dawes, of Fox Lake, William A. Guest, of New York, Dr. Judd, of Fox Iake, D. S. Ordway, of Beaver Dam, and others.

A committee of three, consisting of Dr. Judd, Russel Kneeland, and Mr. Hughson, was appointed to draft resolutions expressive of the sense of the meeting. After a short absence, the committee reported the following:

The disapolatments which have been experimenced in the condition of this Company, and remeded in the condition of this Company, and

The disapointments which have been experienced in the condition of this Company, and the embarrasments which have attended its operations for the last eight or ton months, have called loudly for some explanation which might serve to inform the Stockholders of the causes of the entire prestration of the credit of the Company, and the total depression of all its imposful encentions.

It is not the design of this meeting, nor would be in the power if such word the case, to enter into an examination of these causes. Suffice it to in its power if such word the case, to enter into an examination of these causes. Suffice it to say, that in November last, such was the surbarrassed condition of the company, that the harrassed condition of these campany, that the harrassed condition of the company, tha ancial operations.
It is not the design of this meeting, nor would hen we were solicited to become Stock holders when we were solicited to become Stock holders in it, us we did by mertgaging our farms for the purpose of enabling the company to use our mortgages, as colleteral security for their bonds, upon which to raise money for the construction of the road, "that the organization of this company was peculiarly a Wisconsin measure, and that its operations were designed and intended, always to be and remain under the control and management of citizens of this State."

Notwithstanding this feeling, we very generally, and almost whitout exception, approved of the changes then made, and looked upon that fact us the Larbinger of better prospects, and as likely to lead to the induction of wiser and botter councils.

from all that we are now able to understand

we are constrained to admit, that the said new President and directors, have accombished all that could have been reasonably expected of them under the circumstances in which they

them under the circumstances in which they were placed.

A very large amount, over one hundred thousand dollars of the debts of the company for depot grounds in the city of Milwarker, and tor other purposes, have been paid. The read has been completed and put in running order, from from Kilbourn Cliy to Tomah, a distance of forty-four miles, and to within forty-three miles of La Crosse. A contract has been made with a responsible contractor, to complete the read to La Crosse before the first day of January next; an object of the greatest importance to all interested to this read, as it is universally conceded, that after it: completion to the Mississippi river, the nett carnings will be abundantly adequate to the payment of the interest upon its inmoded dobt, and will rapidly reduce and pay of all its legitimate liabilities.

An election for a board of directors is now approaching, and the Stock-holders are about to be called upon to give their suffrages to the persons of their choice, for such directors. Shall the present directors, or a majority of them and their friends be elected? Or shall a new tot of men that we know nothing of, be chosen.—

These are direct questions, but they must be met, and cannot be evaded in our action on this subject.

While, as stated before, we see nothing to

while, as stated before, we see nothing to condumn, and much to approve, in the action of the Kastern directors thus far—we desire to state here, and to insist as both reasonable and just, that a proportionate representation in the Board of Directors should be granted to the Western stockholders, and that some of the directors to be observed, should be selected from First Class, Succeed Class, Third Class. Fourth Class 14 \$1,12. 60 cts. 70 cts. 55 cts. 14 \$1,12. 50 ots. 70 ots. 55 ots.

Contracts will be given for the transportation of Flourant other freights, to Buffelo, Num York and Euston, by application to Tibbirgs, Stark WHATIER & CO., Constraint and Medicals. Western stockholders, and that some of the directors to be elected, should be selected from among the farm mortgage stockholders.

We believe it no more than just, to insist that these peculiar stockholders are eminently entitled to the special care and protection of the Board of Directors. It is a fact that will not be attempted to be controverted anywhere, that these stockholders were drawn into the companions at the prost artilla and

these stockholmens were drawn into the company by all the means which the most artisl and skillful agents that the company would obtain, were able to employ—and were thus, under the representations of such agents, induced to mortalize the state that the second of the content of the second of the representations of side agents, induces to more; gago their farms to the company, to be used only as collateral accurity for the company's bond—the agent, at the same time, agreeing or be—half of the company, always to protect and fully indemnity the farmer against the annual interest on his protect.

on his mortgage.

It is confidently believed, nay, positively as serted by us, that up mortgage would ever have been executed and dolivered to the company, if the mortgager had not been perfectly convinced that he would never be called upon to pay any. that he would never be catted upon to pay any thing upon it, either interest or principal, if he should surrender his Stock, at the maturity of his mortgage. This was the universal understanding and belief when the mortgages were obtained. We do not believe that we are saying to much, or claiming anything more than simple truth, when we assert, that it was this kind of stock which gave this company any linearing character or standing: and without it. linancial character or standing; and without it, it is even doubtless whether it ever would have had any more of an existence, than its set of

Indiary more of an existence, then its set of incorporation, and its name.

It is believed by us, that the Board of Directors, representing and fully carrying out the true interest, mouning, and obligations of the company, both now, and hereafter, should at all times fully indomnify and protect all the farm mortgage stockholders, sgalast all payments for interest on their mortgages; and ugainst all payments for principal at their macrifice amount for farmer's surrendering his cartificate of stock to the company.

We should therefore at this time, particularly desire to enter into a stipulation with the Presi-

desire to enter into a stipulation with the Presi desire to anter into a stipulation with the President and Directors of the Company, to the effect; "that the farm mortgage stock-holders shall be hereafter, at all times, protected by the company, from all payments, either for interest or principal, or amount of their mortgages—they, the farmers, surrendering their vlaim to stock at the maturity of their mortgages." The practical effect of this proceeding would be, to cancel and retire an amount of Capital Stock, equal to the amount of the nortgages. There is no repudiation in this!

tion in this!

For the purpose of effecting the above mentioned object, we recommend the appointment of a committee, consisting of Wm. Dawss, Robt V. Begert and Martin Wobster, to confer with the Board of Directors on this subject. We con-

the Board of Directors on this subject. We confidently believe, that the justice and equity of this view of the subject, can be maintained among honorable and high-minded men.

We cannot permit this occasion to pass without expressing our dissent from that provision of the act, recordly passed by the Legislature of this State, "To provide for the election of Directors of the La Grosse & Mitwaukos Railroad Comton of the La Grosse & Mitwaukos Railroad Comtors of the La Crosso & Milwaukee Railread Com-puny," limiting the number of Directors to "nine." We believe that he so large a company as this, and where so large a portion of the stock is held out of the State, it would have been better to have left the number at thirteen.

In conclusion, we recommend our fellows and friends to unite with the Eastern stock-holders in the election of a Bord of Directors, which will substance a majority of these now to the direction
